INTRODUCTION TO STARLINK INU

STARLINK INU

Starlink Inu was established on the principle that holders and community members have full control of their money, investment, and destiny. Our token sets itself apart from other digital currencies by being the first \$CRO rewards token on the Binance Smart Chain. We are empowering our holders and members from all around the world to have an opportunity to achieve passive income through our game changing smart contract and rewards system.

Our project is inspired by the technological advances that bring people, from different areas of the world, together much like what the Starlink Satellite operated by Elon Musk's SpaceX is attempting to do. We believe that with our vibrant community, crypto investors can find a virtual environment that they can call home and belong in.

THE FIRST EVER \$CRO REWARDS TOKEN ON BSC

\$CRO is the native token of the Cronos Chain and Crypto.com Exchange. Cronos is the first Ethereum-compatible blockchain network built on Cosmos SDK technology.

Crypto.com is the world's fastest growing cryptocurrency platform in the world boasting 10 million users and aim to have 1 billion users and become one of the top 20 global brands. It's the 18th largest cryptocurrency by Market Cap and has the strongest potential to break the top ten this year

By holding \$StarlinkInu, you are earning passive income in \$CRO proportionate to the amount of tokens you hold. Your share of total supply is calculated vis-à-vis the 5% rewards on each buy and sell transaction and will be delivered to your wallet daily and eventually, automatically, through our DAPPs

TOKENOMICS

Total Supply: 100,000,000 Max Wallet: 1%

- Partnerships & Influencers 6%
- Exchanges 4%
